

The main goal of the project is to activate women by showing them model solutions for the preparation of remote work in the period from 01/04/2021 to 31/03/2023. Through support in the form of e-learning training, webinars and the preparation of a tutorial for learning about remote work - a practical guide with a teacher by partners from Poland, Cyprus, Romania and Turkey.

The project is dedicated to women who want to return to the changed covid -19 pandemic of the work market. The materials and e-learning training will be translated into the languages of the individual partners. The language of communication and the main language of the project will be English.

The main activity in the project is:

- development of 3 innovative e-learning courses in the field of: 1. computer operation, ability to work with software for remote work. 2. learning specialist programs on using the example of accounting and HR programs 3. English language learning focused on a specialist language within specialist computer programs (the most popular phrases in the field of specialized vocabulary of popular computer programs)

- implementation of 2 webinars in the field of soft skills

BLOCK I: communication training (with an emphasis on remote work) and workplace organization

BLOCK II: team conflict resolution (with an emphasis on remote work), and organization of working hours (with an emphasis on remote work),

3. develop a digital guide - a tutorial for learning to work remotely - a practical guide with a teacher.

Erasmus+

Activities undertaken under the project will be carried out with the participation of experts and practitioners in the field of work psychology and career counseling with the use of

new multimedia.

The project is dedicated to women who, due to the covid 19 pandemic, cannot freely return to the labor market and want to remotely regain the possibility of active participation in society in order to prevent social and digital exclusion. The availability of the developed results in English will make it possible to use these materials for career counselors throughout the EU, because, as the OECD report shows, remote work is the best way to solve the problem of unemployment in small regions, as many as 55% of respondents would like to work remotely, if only they had such an opportunity. Research shows that the interest in remote work is greater than the possibility of using such a model of work.

The Group of direct recipients of the developed support, will be:

- women
- experts from formal and informal education centers,
- Vocational education and training organizations responsible for improving competencies;
- institutions supporting women
- Centers for Continuing Education, Methodological Centers.

EDIT·C

EDUCATION & INFORMATION TECHNOLOGY CENTRE

The project is addressed to them and they will become the recipients of information on the possibility of taking part in the activities developed by the partnership: Eduexpert Poland,

DITC LIMITED Cyprus, Alanya Hamdullah Emin Pasa Universitesi Turkey, UNIVERSITATEA DIN PITESTI Romania, Elektroszkolenia Poland.

All these groups use the Internet and can take full advantage of the multimedia materials that are available to them - 3 e-learning courses, 2 webinars in the field of soft skills, 1 tutorial for learning remote work - a practical guide with a teacher.
