Letter of Appreciation

Dear Vladimir Potop!

We express our sincere appreciation for your significant contribution to the development of scientific and educational activities in the field of physical culture and sport.

Your high level of professionalism, demonstrated through your work at National University of Science and Technology Politehnica Bucharest, University Center Pitesti, as well as your Doctoral and Candidate of Sciences degrees, serves as an example of dedication to science and the academic community.

We would like to particularly acknowledge your active involvement in the International Association of Physical Culture and Sport Universities and your fruitful cooperation with the Kazakh Academy of Sport and Tourism, aimed at advancing scientific research, preparing joint publications, and strengthening international academic collaboration.

Your regular participation and presentations at international scientific conferences, including «Olympic Sport and Sport for All», contribute to the dissemination of advanced scientific knowledge and enhance professional dialogue within the academic community.

We also extend our special gratitude for your role in organizing the International Scientific Conference of Students and Young Scientists «University Sport: Health and Prosperity of the Nation», successfully held in Bucharest, which became an important platform for knowledge exchange and the development of young researchers.

Your efforts aimed at integrating modern scientific approaches into the training of specialists and fostering international cooperation make a valuable contribution to the progress of physical culture and sport.

We wish you continued professional success, new scientific achievements, and the successful implementation of all your future initiatives.

Sincerely,

**Director of the International Association of
Physical Culture and Sport Universities**

A.N. Makogonov
